

Pauwel Kwak

Belgian Special Ale 8.4% ABV

To an American beer lover, Kwak is something of a conundrum. What style is it? What other beers would you compare it to? What, exactly, IS Kwak?

The long answer is complicated. Kwak is a beer created by the Brewery Bosteels to be very much unlike anything else on earth. An undefinable “Belgian-ness” is certainly present. Surely Kwak could come from no other country, but beyond that parallels with other beers fall apart.

Kwak is full-bodied and malty, with beautiful, juicy caramel notes. Lightly hopped, Kwak has just enough bitterness to offset it’s malty sweetness so the finish is demi-sec and “moreish”. Great with food, fun to drink in it’s signature glass and approachable, Kwak is the perfect Belgian Ale for any beer list anywhere.

Since 1791 the Bosteels family has owned and operated a brewery in Buggenhout, Belgium. Their most unique and distinctive offering is Pauwel Kwak.
