

BUFFALO SWEAT

OATMEAL CREAM STOUT

We often hear from fans who swore they'd never enjoy a dark beer — until they tried Buffalo Sweat. Some have described it as liquid chocolate chip cookies made with espresso. The lactose (milk sugar) we add into the brew beautifully complements the dark-roasted barley and flaked oats, which gives the beer a rich taste, creamy mouthfeel and a sweet, lingering finish. Try it in a beer float with vanilla ice cream — you'll love the result.

Style: Oatmeal Cream Stout
