SIX PACK 12 OZ. CANS

BEHIND THE BREW

First brewed in 2016 as a limited release beer, Summit Dark Infusion is back by universal demand. A rich, full-bodied imperial milk stout with sweet, roasty notes, this beer is made even bolder and more complex with the infusion of smooth, cold-brewed coffee — with Brazilian beans provided by Saint Paul's Blackeye Roasting Company. Complemented by coffee rather than overpowered, traces of caramel, graham cracker and dark chocolate round out the flavor profile of this highly anticipated and limited beer.

AVAILABLE OCTOBER 2018
12oz cans in 6-packs and Draft
