ARTFULLY OUTWITTING HIS ROYAL NÜISANCE

UNFILTERED GERMAN-STYLE LAGER

"...Having pilfered a bounty of the Mountain King's beloved barley, I continued clambering down the precipice. Parched by my endeavors, I mused over the revivifying unfiltered lager I'd brew with his glorious golden grains. Alas, my reverie was quelled! Before me loomed the skimpy-tunicked crowned mischief, also wildly thirsty, but for vengeance..."

Bavaria, Germany

Brewed with 100% malted barley and traditional German lager yeast, this beer is Insight's take on a traditional German-style lager. With an aroma that pops with a rich character of lightly toasted bread, only three malts were used to find balance and complexity. A creamy white head of foam rests on top of the bold, golden beer, brewed with just enough hops to keep the flavor balanced, yet distinguished. Enjoy the crisp, refreshing flavor of this beer, as it's been years in the making.
